Introducing Hologic’s SARS-CoV-2 testing TRIFECTA which offers simplified, sensitive, and scalable solutions for your lab.

Simplified Workflow
 Expedite testing with a collection device that loads directly on the Panther® system, eliminating manual transfer steps, reducing labor, costs, and risks.

Superior Sensitivity
 Detect with the Aptima® SARS-CoV-2 assay* which provides superior sensitivity and serves a broad patient population with clinical, epidemiological, asymptomatic, and pooling claims.

Scalable Automation
 Leverage the power of the Panther® system to consolidate SARS-CoV-2 testing with a broad range of STI, women’s health and viral load assays on a fully automated high-throughput instrument.

From patient collection to results – trust Hologic as your long-term partner in SARS-CoV-2 testing and beyond.

* The Aptima® SARS-CoV-2 assay. This test has not been FDA cleared or approved; This test has been authorized by FDA under an EUA for use by authorized laboratories. This test has been authorized only for the detection of nucleic acid from SARS-CoV-2, not for any other viruses or pathogens, and this test is only authorized for the duration of the declaration that circumstances exist justifying the authorization of emergency use of in vitro diagnostic tests for detection and/or diagnosis of COVID-19 under Section 564(b)(1) of the Act, 21 U.S.C. § 360bb-3(b)(1), unless the authorization is terminated or revoked sooner.
